TECHNICAL SKILLS

Languages	JavaScript (ES6+), Java, Python, PHP, HTML5, CSS3
Frontend	React.js, Next.js, Bootstrap, Tailwind CSS
Backend	Node.js, Express.js, REST APIs, MVC Architecture, JWT Auth
Databases	MongoDB, MySQL, Mongoose
Data & Cloud	Pandas, NumPy, JupyterLab, AWS S3, Web Scraping
Tools	Git, GitHub, MERN Stack

EXPERIENCE

Software Development Intern | Tata Motors

May 2026 – Jun 2026

- Contributed to the Vahak Clone, a freight marketplace group project supporting Shipper, Transporter, Driver, and Admin roles.
- Worked on a four-role platform with live bidding, OTP-based delivery confirmation, and a fraud detection module built in PHP and MySQL.
- Collaborated with team members on feature implementation, code reviews, and integration of payment and dashboard workflows.

Software Development Intern | Avijo (Startup)

Apr 2026 – May 2026

- Worked directly on the production codebase, identifying and fixing real-world bugs in a live application.
- Raised pull requests (PRs) for bug fixes and feature improvements, participating in code review cycles with the engineering team.
- Gained hands-on experience with production-grade development practices, version control workflows, and agile collaboration.

PROJECTS

Kōsōwa — Collaborative Storytelling App • MERN Stack, MongoDB Atlas | [Github](#)

- Built a real-time collaborative storytelling platform where multiple users can contribute to branching story threads simultaneously.
- Designed and implemented a full REST API backend with Node.js, Express, and MongoDB Atlas; secured with JWT-based authentication and role-based access.
- Used MongoDB Atlas for storing user data, stories and contributions; designed Mongoose schema to handle relational storytelling data efficiently..

Custom Git Version Control System • MERN Stack, AWS S3 | [Github](#)

- Engineered a Git-inspired VCS from scratch supporting core workflows — init, add, commit, push, and pull — without relying on any Git libraries.
- Integrated AWS S3 for remote repository storage, enabling persistent blob-level object storage across sessions and users.
- Built a full-stack MERN application with a clean interface for managing repositories and version history.

EDUCATION

BCA (Bachelor of Computer Applications)

2023 – 2026

Jamshedpur Women's University
